PUT YOURSELF IN HIS PLACE.

Joseph Shelton was beating his wife. The 15-year-old son of the pair attempted to restrain his father and prevent injury to his mother. Failing in this by reason of the superior strength of the man, the boy fired upon and killed his father. To whom ever reads the San Andreas dispatch the question instantly presents itself, "Was the boy justified?" The act of the lad shows deliberation. He did what the law and affection demanded; he remonstrated. This failing, he attempted by physical force to save his mother from injury. That proving ineffective, and evidently believing the heating likely to endanger life, he told his sister to stand aside that they might not take harm, and then deliberately blew out his father's brains. We have no information as to the severity of the beating the man was giving his wife. We may assume that it was severe and endangered her life. Certainly a 15-year-old boy may have believed it very dangerous to life. The effect upon the son justifies this conclusion. But the man had no right to beat his wife at all. He has sworn to guard and protect her. Of all others he should have been the last to strike her. Any severe beating is dangerous; even a light blow delivered upon certain parts may kill, and when administered in some places upon the person is almost certain to kill. "Thou shalt not kill." But was this murder? Does the racial we have disclose any malice or passion upon the part of the lad? Suppose any other than his father had assailed the boy's mother with blows and refused to desist. Is there a man living who has a spark of manhood in him who would not shoot down his physical superior when assaulting the woman who bore him? What jury in the land can be impaled to convict a man for killing one who was brutally beating the wife of his bosom? What jury is there that would not justify an adult son in defending his mother under like circumstances? How much more readily would a jury find a mere lad? How does the fact that the assailant is the father of the slayer after the case? Men kill those who insult their wives and juries refuse to convict. It is a chivalry that is indorsed by the mass of men despite the law. Forced to the wall, one may take life to defend himself, his wife and the members of his family. Here now is the person who should have protected the wife abandoning his trust and obligation and becoming her assailant.

Did the office of protector then devolve upon the boy son? Having the ability to prevent his father killing his mother and failing to use it, what would we say of even a mere boy who would stand idly by and refuse to prevent an act by one parent upon the other at all likely to result in death, or even in permanent injury? Who of us, if put in that boy's place, would have acted differently? These are questions that present themselves to every reader of the sad story. For ourself, convinced that the boy believed his mother to be in imminent danger, we would hold the lad blameless, while pitying him as an unwilling paricide. One of mature judgment would have sought to so wend as to dislodge the assailant, but who shall say that this unfortunate boy of fifteen intended to make his shot fatal? In any light in which viewed the lad will be safe from punishment; no jury will convict him of any crime in the premises.

NO ONE will blame the members of the Grand Army of the Republic for expressing their indignation over the preparations for their reception in Portland, Maine. A special police force was sworn in, and the old soldiers feel to be a gratuous insult. On Monday they telegraphed to the authorities at Portland:

Two thousand comrades of the Grand Army

of the Republic have read the dispatches of the appointment of special police to care for the lives and property of the people of the city. They are in the opinion that in times past we were the police of the nation, and twenty years has not diminished our responsibility to the President. There was a general hand-shaking, but no speeches. Mr. Merck, who is the Adjutant General, and an invalid in condition to-night, and his physicians pronounce her in a most critical condition. She has not been informed of the death of her husband.

The National Encampment of the G.A.R.

PORTLAND, June 23.—The second day of the National Encampment of the Grand Army of the Republic was a beautiful day as could be desired for the great procession. The streets through which the parade was to pass were crowded with people and gay with flags. At 11 o'clock the signal was given for starting, the procession was fired and the line moved forward without confusion. It had been calculated that it would require two hours for the procession to pass, but instead of that it took over 20 hours. Individual prizes were distributed as far as the top climbing first, Captain Kammeyer, General Logan, Sloane, Huber, of New York; third, Fred Klink, of Cincinnati; high jump, first, Henry Lyman, of St. Louis; second, Gustav Bojus, of New York; third, John Schaeffer, of Milwaukee; long jump, first, A. Lerman, of Sandusky; second, A. Barbeck, of Cleveland; third, E. Kerberle, Chicago. Hop, step, and jump, first, A. Lerman, of Sandusky; second, B. Bunderle, of Cleveland; third, John Schaeffel, of Newark; fourth, first, John Schaeffel, of Newark; second, Heinrich Holde, of Newark. Shooting, first, Michael J. O'Neil, of New York; second, Mikrofiedl of Jersey City; third, G. E. Reche of Newark. Wrestling, first, Gustav Bojus, of New York; second, G. Rebe, of Cincinnati; Indian club swinging, first, Captain Kammeyer, as the representative of the body, at the City Hall.
